Safety Information

- Read and understand all instructions for proper installation and use of this product as improper use may lead to serious injury or death.

Before loading equipment on to the cable tray rack, be sure to torque all mounting hardware provided with the rack to a setting of 75in-lbs.

- The maximum load capacity of the cable tray rack should not exceed:
  
  CTR-02-01 - 9kg (20lbs)
  CTR-04-01 - 8kg (40lbs)
  CTR-06-01 - 27kg (60lbs)

- The cable tray racks are intended to be installed in accordance with all applicable requirements of the National Electrical Code (NEC) and the local Authority Having Jurisdiction (AHJ).

- The minimum spacings between the accessories and components and the cable tray rack shall be maintained for safe operation of the equipment when installed in accordance with the NEC.
HARDWARE
