

# CT® 5e COUPLERS

The engineering innovations used in the design of the CT 5e couplers ensure full-featured end-to-end category 5e connectivity. The couplers feature universal T568A/B wiring and comply fully with all applicable ISO and TIA specifications for all pair combinations.

**PATENTED**

WORK AREA

*Angled CT 5e Couplers are available with optional spring doors to protect modular jacks from outside contaminants*

**Technical Tip!**  
Angled couplers are recommended for work area applications and flat couplers for patch panel applications

*Patented "reactive balance" technology provides exceptional category 5e transmission performance*

*Patented gravity-feed design controls bend radius of mated modular cord. The angled shroud protects the connection point from being physically disturbed*

*Snaps quickly into CT faceplates or patch panels and can be easily removed using a small screwdriver to access terminated cable*

Recommended Panel Cutout:  
 1.52 ± .08mm or 2.5 ± .08mm  
 (.060 ± .003 in. or .100 ± .003 in.) thick
