

MC[®] 6 UTP Modular Cords

Siemon's Category 6 series of modular cords are key components to ensure optimum channel performance of our Category 6 UTP systems. A variety of product enhancements contribute to the cord's superior performance — including 250 MHz rated stranded cordage, a patented crosspair isolator and an innovative 360° crimp, which provides excellent plug-to-cable strain relief without causing pair deformation.

Excellent Bend Relief

Boot and integrated strain relief ensures proper bend relief, critical for Category 6 performance

Colour Coding

Optional coloured clips enable field colour coding and can easily be snapped into place without having to disconnect cords
