# VersaPOD™ VP2 CABINET

Siemon's new extended-depth VersaPOD VP2 data center cabinet solution designed to support deeper networking, server and SAN equipment. Like the 1000mm depth VersaPOD VP1, the new 1200mm (48 inch) deep VersaPOD VP2 integrates bayed data center cabinets with Siemon's exclusive ZERO-U vertical patching and cable management capability. The VersaPOD VP2's combination of additional front-to-back cabinet space and space-saving ZERO-U patching is ideal for high-density data center environments, enabling increased cabling and equipment density while providing excellent accessibility and thermal efficiency.

All of the VersaPOD VP2 unique features are integrated into a full-featured modular enclosure that is equally effective as a standalone network and server cabinet or in a multi-unit bayed configuration, offering a simple, scalable expansion path in any data center.

Locking/Removable Side Panels —For stand alone cabinets or end units, side panels can be removed for full side access

Perforated Doors — Perforated front and rear doors enable over 71% airflow to ensure optimum hot aisle/cold aisle circulation critical to energy-efficient data center cooling

Cable Access — Each VersaPOD unit has cable access openings in the top panel and a completely open base, enabling maximum air flow and routing of cabling into or out of raised floor or overhead pathway systems

Innovative Door Options — Dual hinged front and quad hinged rear doors open from either the left or right and are easily removed. Rear split doors can be hinged open in both directions providing direct access to Vertical Patch Panels and cable management

Flexible Mounting Options — CEA-310-E Standard mounting rails are adjustable to fit a wide array of network and storage equipment. Multiple keyhole mounting options and cage nuts further extend the ability to customize the VersaPOD to user requirements

Recessed Corner Posts — Four recessed corner posts provide unimpeded cabling access across the entire front, rear and sides of multiple bayed units

The Siemon VersaPOD system's innovative design offers full accessibility from the front and rear of each bayed unit. Customized zero-U sliding patch panels and vertical patching channels may be mounted between bayed cabinets

All features are contained within bayed VersaPOD cabinets providing scalability for installations of any size

Fan kit available separately, can be mounted in the cabinet roof for enhanced air flow

RACKS AND CABLE MANAGEMENT

VersaPOD™ Cabinet Base Unit:

VP2-(X)(X)(X)(X)11 ....45 RMS, 762mm x 1200mm Cabinet, Black

Use 1st (X) to specify Side Panels:
0 = no side panels, 1 = 1 side panel, 2 = 2 side panels

Use 2nd (X) to specify Front Door:
A = Full vented/dual handle, B = Split vented/dual handle,
C=Split solid/dual handle

Use 3rd (X) to specify Rear Door:
A = Full vented/dual handle, B = Split vented/dual handle,
C = Split solid/dual handle

Use 4th (X) to specify Lock:
1 = keyed lock, 2 = tumbler combination lock

Includes: 4 leveling feet, 50 cage nuts and 4 stabilizing brackets

height: 45 RMS,
width: 762mm (30 in.)
depth: 1200mm (48 in.)

1 RMS = 44.5mm (1.75 in.)

VersaPOD Cabinet Specifications:

Dimensions	inches	mm	
Height	84	2133	Nominal Height with adjustable leveling feet
Width	30	762	
Depth	48	1200	
Height with Castors	84	2133	
Height on Pallet	89	2261	As delivered on wooden pallet
Product Weight	**lbs**	**kgs**	
Cabinet Weight	350	159	
Cabinet Weight w/packing	375	170	Includes wooden pallet and packaging
Load Rating	**lbs**	**kgs**	
	2204	1000	Static load, evenly distributed

Rack Mount Space (RMS)	45
Base Type	Open
Color	Black
Standard Front Door	Full, dual hinge, perforated, keyed lock
Standard Rear Doors	Split, dual hinge, perforated, keyed lock
Interchangeable Front/Rear Doors	Yes
% Door Perforation	71%
Removable Doors	Yes
Lockable/Removable Side Panels/Vertical Split	Yes
Adjustable Mounting Rails	Yes
RMS Identification on Rails	Yes
Standard Compliance	CEA-310-E
Adjustable Leveling Feet	Yes, sold with cabinet
Stabilizing Brackets	Yes, sold with cabinet, used to secure cabinet to shipping pallet
Cable Access Openings — Roof Sides/Front/Back	8
Cable Access Openings — Roof Center	3
Brush Guards Available	Yes
Fan Kit Available -	Yes
Compatible with vertical exhaust duct	Yes
