

Siemon *Success* Solution

Customer Overview Deloitte and Touche

INDUSTRY
Financial Services

- Globally provides audit, tax, consulting, and financial advisory services
- Approximately 132,000 employees and affiliates
- Operates in over 180 countries
- Headquartered in New York City, USA
- US \$12.5 billion in revenues in fiscal year 2006

Challenge

With approximately 40 offices moved or remodeled each year within the US, Deloitte and Touche is constantly changing. Every office must be updated with a brand new category 6 infrastructure requiring a total of 15,000-25,000 ports annually.

Solution

Siemon simplifies the process of implementing Deloitte and Touche's cabling upgrades. Project management and support services for each installation are provided by Siemon's Project Assistance program, which assesses each installation's requirements, and helps select the best-suited local Siemon Certified Installer.

Deloitte and Touche installations utilize a Siemon System 6® UTP horizontal solution in support of 100BASE-T application speeds at the work area. The 1Gb/s backbone is also supported by a System 6 infrastructure. These installations are Siemon end-to-end, utilizing Siemon cable, patchcords, MAX® outlets, racks and cable management.

Results

With the volume of network change they experience, Deloitte and Touche required a consistent, high-performance "turn-key" approach to cabling infrastructure. Siemon is proud to support these extensive cabling product and service needs.
