

Smart Buildings Are RAPIDLY Evolving Into SMART, ADAPTIVE Environments.

40 Billion IoT devices projected by 2030.*

PoE annual growth rate of 20% to 2032.*

73% of companies now make smart workspace planning their top real estate priority.*

READY?

DESIGN. BUILD. OPERATE.

SMART BUILDING COMPLETE

Powering and connecting everything from wireless access points to security cameras, access control systems, sensors & more. Sustainably.

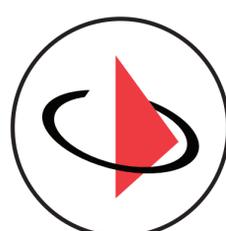

PowerGUARD® + TECHNOLOGY

APPLICATION SUPPORT

SUSTAINABILITY

THE SIEMON STANDARD

PowerGUARD® + TECHNOLOGY

Extended Reach. Reduced Cost.
Connect IoT devices up to 200m.

High-Performance
Patented design to operate in all environments.

Proven Assurance
Rigorously Tested. Third Party Verified.

APPLICATION SUPPORT

NEW Design Tools
Cabling Reach Calculator • Wiring for Wi-Fi
Fiber Backhaul Calculator

Professional Design Services
From design to deployment.

Application Coverage
Built for Wi-Fi, security, AV, DAS, BAS, PoE lighting, and more.

SUSTAINABILITY

Leading Responsibly
ESG commitments verified by third-party accreditations.

Transparent Reporting
Verified through Health & Environmental
Product Declarations.

Sustainable Packaging & Logistics
Save time. Cost. Waste.

THE SIEMON STANDARD

Proven Quality & Innovation
Innovation. **400+** patents. Industry aligned, standards led solutions. **25-Year** Warranty.

Trusted Partnership
Customer focused. Powering connectivity for **120+** years.

Global Footprint
Global manufacturing and logistics. Serving customers in **100** countries.
