

Ruggedized Cable Accessories

ColorCodedCuffs™

Siemon ColorCodedCuffs (CCC) offer telecom installers an updated means to identify carrier equipment with a safe, robust, quick to install cable identification system. The injection-molded, single piece design allows for toolless, one-handed installations with 360° coverage, even while wearing work gloves.

The 1/2" Coax is Suitable for harsh, outdoor environments, Siemon's CCCs are composed of chemical resistant materials suitable for ultraviolet exposure, water immersion and ice build-up. A superior alternative to electrical tape, CCCs are color-matched to industry standards and are an eco-friendly and durable identification solution that does not require tools and eliminates field issues associated with tape flags and deteriorating adhesive.

ColorCodedCuff for 1/2" Nominal Coax

Single Piece Design

The injection molded, single piece design makes it easy to install cuffs onto cables, even while wearing work gloves. Cable size and product URL are molded into the interior of the cuff for easy identification.

360° Visibility

Full 360° coverage in easy to identify industry standard colors.
