

MAX® Horizontal Medical Faceplates

Regional Availability - Australia & New Zealand

The MAX series horizontal medical faceplates provide a low-profile solution for mounting Z-MAX®, TERA® and both angled and flat MAX outlets. The design features a cover and one-piece base which accepts up to four outlets.

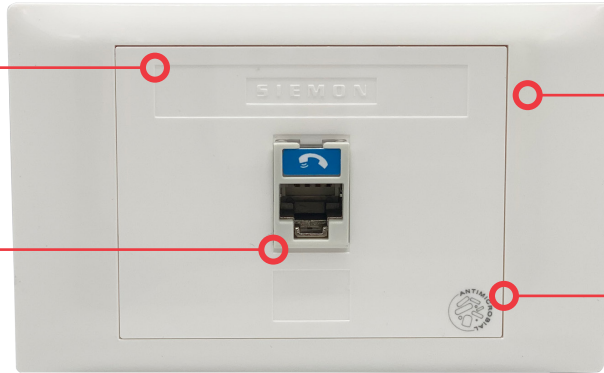

The medical faceplate cover is fabricated with chemical resistant/antimicrobial materials that reduces the risk of cross-contamination and is an ideal choice in healthcare, education, laboratories, hospitality and kitchen environments.

Label Location

The faceplate has depressed labelling areas above and below the ports to allow easy attachment of labels

Installation Flexibility

Z-MAX, TERA, and MAX designs allow outlets to be side-stacked and inserted from either front or rear of faceplates

Colour Options

Faceplates available in white

Credential Marking

Plate is marked with the antimicrobial symbol

Compliance

- JIS Z 2801:2010 (Antimicrobial products – Test for antimicrobial activity and efficacy)
- ISO 22196:2011 (Measurement of antibacterial activity on plastics and other non-porous surfaces)

MAX® Horizontal Medical Faceplates

Siemon's medical single gang horizontal faceplate for Z-MAX, TERA or MAX outlets

MX-HFPM-(XX)-(XX)

Ports

- 01 = 1 Port
- 02 = 2 Port
- 04 = 4 Port

Colour

- 02 = White

1-port faceplate

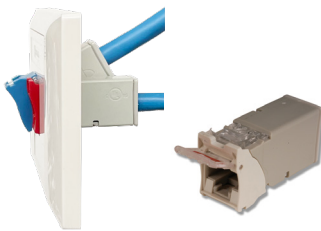

2-port faceplate

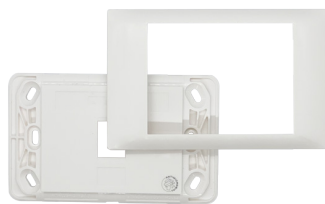

4-port faceplate

Faceplates include mounting screws

Installation Versatility

Z-MAX provides a single hybrid outlet that supports both angled and flat mounting orientations. The spring door outlet option minimizes exposure to contaminants.

Dual Layer

Removable snap-on cover plate enables easy mounting and improves aesthetics in the work area.

Applications

Suitable for medical and healthcare facilities such as hospitals.

Because we continuously improve our products, Siemon reserves the right to change specifications and availability without prior notice.
