

Z-MAX™ 6A UTP MODULAR CORDS- US

The Z-MAX patch cord is a primary driver of the Z-MAX system's exceptional performance. The Z-MAX smart plug design features a tuned printed circuit board (PCB), normally found only in outlets, to achieve high performance tuning. The PCB also allows the incorporation of advanced contact technology to provide decreased variability and greater reliability over traditionally crimp-type plugs.

Combined with alien crosstalk resistant cable construction and a host of innovative, user-friendly features, the Z-MAX 6A UTP modular cords set the bar for category 6A UTP patching
