

UltraMAX™ Copper Connectivity System

5e, 6, 6A UTP Outlets | Regional Availability — Global

The Siemon UltraMAX copper connectivity system utilizes a single platform of innovative outlets for your category 5e, 6 and 6A UTP requirements. The UltraMAX outlets are designed to maximize usability, quality and performance into a sleek footprint that's ideally suited for users to deliver quick, reliable terminations first time, every time.

Hybrid Outlet

Keystone Outlet

Intuitive Design

The hybrid outlets' compact design makes it ideal for high-density applications. Users also benefit from the "pass-thru" feature, which allows it to be mounted from either the front or rear of a faceplate. Hybrid outlets may be installed in a flat or angled orientation.

Multiple Options

All UltraMAX outlets are available in hybrid, keystone and patch panel mounting styles, providing users with a range of options to suit your various installation needs.

*Panel Outlet shown below.

1. Icon

Icons are ideal for both simple color-coding and easy application identification for your critical connections. Icons are not included with outlets and sold separately.

2. Bezel

Ideal for color-coding and flexible mounting, these colored bezels bring more than just aesthetics.

3. Outlet

Our UL-listed outlets deliver a sleek and intuitive footprint as well as innovative linear lacing functionality.

4. Termination Cap

Keep your terminated cables secure and reliable with our removable termination cap.

Panel Outlet

Versatile Installation

Each UltraMAX outlet features a unique linear lacing design which allows users to terminate their connections from either side and deliver fast, consistent terminations, every time.

Guided Termination

Distinct linear lacing channels guide correct conductor placement during termination, while 2-sided color-coding provides simple T568 A or B wiring verification before and after lacing.

Flexible Mounting

UltraMAX's hybrid bezel allows users to easily install outlets in a flat or angled orientation, while also providing a simple option for color-coding network connections.
